Internship Requirements or Goals:

Total hours: _____

School Requirements of Site Supervisor:

Why have you chosen AGFSA as a potential internship site?

History/ Background:

Have you ever dealt with the following?

Anorexia Bulimia Alcohol Abuse Drug Abuse
 Sexual Abuse Self-Mutilation Adoption Child Abuse
 Other (Please Specify) _____

The residents at AGFSA are dealing with very serious issues, including the ones listed above. Because of the seriousness of the issues dealt with at AGFSA, the atmosphere can be very intense. Our experience has been that working in this intense environment can be overwhelming if staff and volunteers/interns have not dealt with the issues in their own lives and worked through healing. It is necessary for us to protect our residents from any authority figures who have not yet worked through their own issues, as well as to protect any staff/interns/volunteers from having their own struggles intensified and triggered.

Therefore, we are asking for a short essay explaining your experience with any of the above issues and how you have walked through healing in them. (This may be included as your testimony, but must be specified as such.)

How long has it been since you struggled in the above areas? _____
